Valentín F. Carlomagno

Junior web developer

ABOUT ME

I am a junior programmer with a strong desire to learn and adapt to the needs of the business environment.

I consider myself an efficient, creative, and productive person, always focused on problem-solving and continuous improvement. I have knowledge of languages such as TypeScript/JavaScript, PHP and MySQL as well as experience with frameworks like React, Node.js, Express.js, Bootstrap and Tailwind.

I am seeking opportunities that will allow me to grow in the software development field and contribute to the success of innovative projects.

Highlighted Projects

- Landing Page for Analía Carlomagno: Built using React.js and CSS, creating an interactive and visually engaging design for a plastic artist's portfolio.
- Country Information Application: Full-stack application with React and Node.js, utilizing React's Context API for state management to display and filter country and state data.
